Medical/Surgical Registered Practical Nurse

Classification	RPN
-----------------------	-----

Department	3E – Medical/Surgical/Intensive Care
-------------------	--------------------------------------

Description

The role of the RPN is to provide care to clients who are individuals or groups of individuals, including family members and significant others. The RPN is able to practice independently when the clients' condition is common enough that the outcome is predictable, allowing the RPN to implement pre-set care plans that include a limited range of interventions. The RPN will seek the collaboration of the RN in client situations that are beyond this scope.
